

The bad guys know exactly where your computer network is vulnerable. Wouldn't you like to know as well?

SOS Systems, Inc. wants to help you defend against hackers, data thieves, spammers, scammers and all of the assorted criminals who are out there, using common computer tools to access your network and potentially cost you time and money.

**FREE NETWORK VULNERABILITY ASSESSMENT
A \$250 VALUE**

Our engineer will run a non-invasive test on your network, which will highlight any areas where you may be weak in defending against unwanted intrusions. Your basic vulnerability scan report is for informational purposes only. SOS can also consult with you on how to remedy any problem areas.

(901) 371-0628

Call us today to schedule your free assessment. There is no obligation and nothing to buy.
